

The Massage Clinic Testament Pages

This is my story. Expertise, dedication and Lin's professional way of advising people are some of the qualifications that make Lin Hourihan and The Massage Clinic staff worth enough to keep going for a massage, and all the services they offer.

I've been with Lin and The Massage Clinic for about 3 years consecutively, and in these 3 years: The Neuromuscular massage is a great way of relaxing all my body, especially on those days when I've been feeling exhaustion from my busy life.

The Lymphatic Massage is helping me to cure faster and it's been relaxing all those sore parts of my body that need attention, especially after my breast reduction and my abdominal surgery. Reflexology is helping me to correct the intense pain that I used to have due to heavy job performance. Ear Coning stopped the itching I used to have in my ears.

The luxurious Hot Stone Massage and Facial Massage always improves the appearance of my skin. And the Counseling that for me has been a wonderful way of finding someone who hears and cares about my problems, and someone that finds a solution through professional guidance without medicine for a better healthy way of living.

I'm thankful and feel very lucky to know Lin Hourihan and The Massage Clinic. And I'm looking forward to continue using their services for years to come.

Sincerely,
Amanda Santos
