

The Massage Clinic Testament Pages

Please include me in the Testament Pages.

The Massage Clinic has helped my arm pain condition.

I have had this problem since 2001.

This is my story: I have had elbow pain for years, & the only way I can function is if I get regular massages & exercise.

Lin has the magic touch - and she intuitively knows just what to focus on when I walk in the door. Her office in Stratford is

on a busy street, but she has made it a ^{such} true sanctuary that you'd never know it. I always look forward to my massages

at the Massage Clinic. It's a mini vacation & a really nice thing to do for myself.

I feel best when I get 2 massages a week
